Re: News Update

The Board of Directors have made a few rule changes that you should be aware of. We have dropped the 2.6 diesel class and the old work stock class. We have created a new 2.5 work stock diesel truck class. This will be a point's class with a \$550 purse. The biggest difference is that this class requires safety equipment and has rules that can be enforced. It should make my life a lot easier at a pull. Rules will be on the website soon.

Pro Street is the other class that we have some rule changes.

- 1, There is no longer a requirement for plates and insurance.
- 2, No hemi heads.
- 3, Hitch height is now 20" down from 22".
- 4, Fire jacket with SFI rating of 3-2a-1 required.

We also have a new board member. C W Harting has stepped down and John Gilbert has come on board. We welcome John's experience and knowledge of pulling to the board. We have also added Joe Tumbleson to the board as a nonvoting advisor. He also has a great knowledge of pulling.
